Big Leather Companies, Headed by W. A. Stetson, Involved in Creditors' Bankruptcy Petition—Surprise in Street.

Liabilities of \$3,000,000 are given in an involuntary creditors' petition in bankruptcy filed in the United States Bankruptcy Court to-day against William A. Stetson, a prominent leather dealer of Boston, and against the Ford Morocco Company, of which Mr. Stetson is president; the Boston Chrome Leather Company, of which he is treasurer; and the William A. Stetson Company, of which he is at the head.

It is set forth in the petition that there are about \$1,000,000 in secured claims. The assets, it is estimated, will aggregate about \$1,600,000. The action on the part of the creditors came as a complete surprise to the business friends of Mr. Stetson.

The creditors ask the appointment of Joseph O. Proctor, with offices at No. 54 State street, as receiver of Stetson and the companies he represents.

Four years William A. Stetson has been prominent in the leather trade of Boston. He has always been supposed to possess a good fortune. His business holdings have been large and his income, it is reported, larger than that of many of his contemporaries.

Mr. Stetson occupies a fashionable residence at No. 1888 Commonwealth avenue. Brighton. His Boston Chrome Leather Company has occupied part of the building at No. 62 South street. The William A. Stetson Company was next door.

Other companies, it is now reported, had a hard time of it throughout the financial crisis. But Mr. Stetson struggled bravely against the odds to save himself. The debt was too much. Creditors pressed and he was unable to meet their demands.

Many Notes Out. The petitioners against the four companies are as follows: Assisted William A. Stetson are Robert W. Kelso of Boston, who holds a note for \$100,000; J. Jackson Crane of Boston, who holds a note for \$50,000; and the W. A. Stetson Co.

Against the Boston Chrome Leather Company are W. A. Stetson Company, who holds a note for \$100,000; J. Jackson Crane, who holds a note for \$50,000; and the W. A. Stetson Co.

BROOKLYNITE PROVES EASY FOR THE SAN FRANCISCO—BETS OFF.

By W. W. Naughton.

SAN FRANCISCO, Cal., May 1.—The fight between Tommy Sullivan of Brooklyn and Abe Attell of San Francisco, which was the main attraction of the Coliseum last night, ended in the fourth round, and the honors rested with Attell. Sullivan was knocked down with a right hander on the pulse of the club, and although he arose quickly there was no fight in him. He was sent down a second time and once again he reached his feet. While he was tottering around the referee called a halt, and before Attell King decided in favor of Attell.

Prior to the start of the affair Sullivan King declared all bets of giving as his reason that many persons had placed their wagers on the event prior to the change of weights, terms which permitted Sullivan to scale three pounds more than the article originally called for. On the assumption that the extra weight had been agreed to, the referee believed it only fair to call all wagers off.

Sullivan "Was Weak." Sullivan seemed to have very little strength in him at any stage of the proceedings and his actions while tottering around the ring after the second knockdown did not seem to give him any credit. One of the spectators howled him after the decision was announced.

Attell was the stronger of the pair throughout. He showed no signs of being in it in all of his affairs of the ring, and was a varied, agile fighter. He was a boxer at heart, and his boxing was his strength. He was a boxer at heart, and his boxing was his strength.

Sullivan Claimed Foul. The third round saw Sullivan in a bad way more than ever. Attell sent the trouble with a left swing on the stomach and Tommy bent over and gasped. Another such punch followed and Sullivan tried to make referee King believe that he had been struck. Sullivan was not at all severely, slipping him on the foot with the left, and sending the blow, so will over his lip.

Attell was the first of the decisive punches, leading to the fourth round Sullivan was pointing Attell and putting in light on the face. Attell just held his time.

Important to all Women Readers of this Paper.

Women are so subject to kidney trouble as men, which fact is often overlooked.

Many women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they will cause the other organs to become diseased.

You may suffer a great deal with pain in the back, burning-draw feelings, headache and loss of ambition.

Poor health makes you nervous, irritable and maybe dependent; it makes any one so.

But thousands of irritable, nervous, tired and broken-down women have stored their health and strength by the use of Swamp-Root, the great Kidney, Liver and Bladder Remedy.

Swamp-Root brings new life and activity to the kidneys, the cause of such troubles.

Many send for a sample bottle to see what Swamp-Root, the great Kidney, Liver and Bladder Remedy, will do for them. Every reader of this paper who has not already tried it may address Dr. Kilmer & Co., Binghamton, N. Y., and receive sample bottle free by mail.

Advance in Grand Opera.

This working agreement marks one of the greatest advances in development of American grand opera that the country has known. Mr. Russell is delighted with the consummation of this plan and speaks in high praise of Mr. Hippel's co-operation with him.

The new arrangement will double the list of new singers and new operas to be heard in Boston and New York. One of

the greater perplexities of the impresario controlling only one opera house in this country is to get a sufficient supply of artists and operas. Foreign singers and composers demand guarantees that a single opera management finds difficulty in meeting. Under the new arrangement there will be practically double resources for the

from the People

IT IS SOON to be a ghost, with extensive powers to help or harm. We know not what there are to ghosts with any power, but we know that they have white beards; that they have a most potent voice; that they can take any shape; that they can be corporeal; and we welcome them to corpses. This seems to be the view of old age, as distinguished from the view of old age.

Older, sadder view.

It is so much to be compatible with the standard; but the progress of social events is so much to be against the standard. To be sure, the physiological cost, to say nothing of the indirect effects, of a society to throw too much work upon its younger members. It will however, take several generations for the fact to be the social cost.
